

# Reem Haitham Ahmed Helmy

## Front-End Developer

reemhaitham69@gmail.com | 01220978902 | Giza, Egypt | <https://www.linkedin.com/in/reem-haitham/>

### Summary

Results-driven Front-End Developer with hands-on experience building scalable web applications using React, Next.js, and Node.js. Strong foundation in UI/UX design from ITI, combining technical expertise with a deep understanding of user-centered design principles. Experienced in developing responsive interfaces, integrating RESTful APIs, and delivering end-to-end solutions. Passionate about writing clean, maintainable code and contributing to high-performance, growth-oriented teams.

### EDUCATION

---

#### Ahram Canadian University

Sep. 2020 – July 2024

Bachelor of Computer Science and Information Technology, General Grade: Good.

### WORK EXPERIENCE

---

#### Full Stack Developer – Digilians

Feb– May 2026

- Developed end-to-end web applications using React and Node.js, improving user engagement by 25% and reducing page load time by 20%.
- Integrated front-end interfaces with secure and efficient back-end APIs.
- Executed authentication, routing, and state management for scalable applications.
- Optimized application performance, reducing page load time by 30% and increasing user retention by 15%.

#### Coding Instructor at Be School (Scratch)

Feb 2025– May 2025

- Taught Scratch programming to 20+ students and delivered 10+ project-based lessons.
- Guided students in building 5+ interactive projects.

#### Coding Instructor at Be School

Oct 2024 – May 2025

HTML, CSS, JavaScript and React (Front-End Course)

- Delivered 30+ training sessions in HTML, CSS, JavaScript, and React.
- Mentored 25+ students through hands-on projects and real-world front-end scenarios.

#### Front-End Developer Trainee – Route

Mar– May 2025

- Engineered dynamic, high-performance web applications using React and Next.js, serving 1,000+ active users daily with 99% uptime.
- Optimized application performance, reducing page load time by **30%** and increasing user retention by **15%**.
- Refactored front-end codebase, improving maintainability and reducing bug reports by **25%**.
- Enhanced user experience through responsive design, serving **1,000+ daily active users**.
- Applied modern front-end development standards and responsive design principles.

Front-End Web Development Intern

- Built a responsive e-commerce interface with 8+ UI components using HTML, CSS, JavaScript, and React.

## Volunteering

---

### Front-end Developer (Team Member), Al-Azhar University [🔗](#)

- Contributed as **Front-end Developer** to **Ghosn**, a plant-awareness web platform.
- Implemented UI components and helping the team win **2nd Place** in Al-Azhar University competition.

## Measurable Achievements

---

### Best Graduation Project (with Honors)

- Built **5+ interactive UI components** in a responsive tourism website (HTML, CSS, JavaScript).
- Built an e-commerce web app with **10+ reusable components** using React and Tailwind.
- Created a responsive food website with **4+ dynamic sections**.
- Built **6+ responsive UI screens** for an AI-based plant disease detection app; awarded **Best Graduation Project (with Honors)** among **30+ projects**.

## TECHNOLOGY & SKILLS

---

**Front-End:** HTML5 | CSS3 | JavaScript | Bootstrap | Tailwind | jQuery | ReactJS | Node.js

**Back-End:** Node.js | SQL Server | MySQL.

**Concepts:** Git (GitHub) | Design Patterns | OOP | Data Structures.

**Soft Skills:** Communication | Teamwork | Problem-solving | Time Management | Adaptability | Fast Learner.

**Languages:** Arabic (Native) | English (Professional).

## PROJECTS

---

### Tourism Kemet Website [🔗](#)

- Designed and built a **responsive Tourism Kemet website** using HTML, CSS, and JavaScript, implementing interactive features and an engaging UI.

### E-commerce Website [🔗](#)

- Engineered a comprehensive e-commerce website using React with scalable UI.

### Yummy Food Website [🔗](#)

- Created a food-related website using HTML, CSS, JavaScript, and Bootstrap.

### Graduation Project - Planka [🔗](#)

- Implemented an advanced application for diagnosing plant diseases using AI models, Flutter, Dart, and backend technologies.
